HP Printers - Printing from Android Smartphones or Tablets

This document is for HP network-connected or Wi-Fi Direct printers and Android smartphones or tablets.

Print from your Android OS 5.0 or later device to your printer using the HP Print Service Plugin.

Step 1: Install the HP Print Service Plugin

Install the HP Print Service Plugin on your Android OS 5.0 or later, and then turn on the plugin.

NOTE: Menus, icons, and the location of the print settings vary by Android version and device manufacturer.

1. Confirm your Android device is connected to the same network as your printer, or that Wi-Fi Direct on your printer and Android device is enabled.
2. On your Android device, install or update the [HP Print Service Plugin](#)  (in English).
3. Once the installation or update is complete, choose your Android device to turn on the plugin:
 - **Android 7 (Nougat) and later devices:** The HP Print Service Plugin turns on automatically after installation. Continue with these steps.
 - **Android 6 (Marshmallow) and earlier devices:** Tap **Settings**, search for and open **HP Print Service**, and then tap **On**.
4. Turn off any other print service plugins, if necessary.

Your Android device is now ready to print using the HP Print Service Plugin.

Step 2: Print with the HP Print Service Plugin

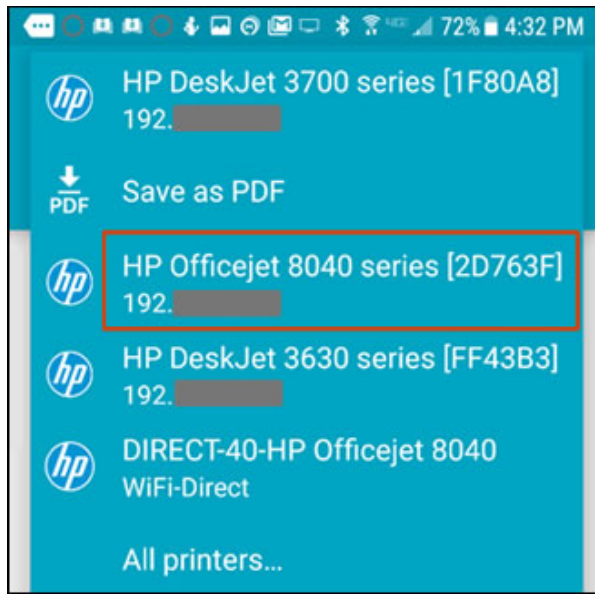

Print photos, documents, emails, or webpages from Android apps that provide a Print option on their menu.

Country/Region:  India

1. Open the item you want to print, tap the menu icon , and then tap **Print**.
A print preview screen displays.
2. Tap the down arrow ▼ to view the printer list, and then select HP [your printer model name] to print over the network, or DIRECT-xx-HP [your printer model name] to print with Wi-Fi Direct.

3. Tap the down arrow ▼ to change any print settings, and then tap the **Print**  icon.

Frequently asked questions (FAQs)

Refer to these frequently asked questions for more information about the HP Print Service Plugin for Android devices.

-
-  Does my HP printer support the HP Print Service Plugin?
-
-  What if I cannot connect to the printer, the printer does not display in the printer list, or a 'Printer isn't available' message displays?
-
-  Can I print if my app does not have a print option?
-
-  Can I print remotely using Print Anywhere with the HP Print Service Plugin?
-
-  When printing remotely, how do I resolve a 'Can't connect to printer' error message?
-
-  Can I add and remove a printer manually from the HP Print Service Plugin?
